# Digital Technologies at MHPS

Digital learning is any type of learning that uses technology. It can happen across all curriculum learning areas. Kindergarten classes engage with digital devices regularly.

# The students use computers to reinforce concepts learnt in their classrooms.

# MHPS has multiple 3D printers in the computer lab.

Students use Ipads in the classroom and the Library.

# Students learn coding skills to use BeeBots.

# Students also complete activities using Interactive Whiteboards that are in every classroom.
